EDUCATION

SaiGon University June 2026
Software Engineering *Current GPA: 2.6/4.0*

COURSEWORK

Courses: Object-Oriented Programming, Data Structures & Algorithms, Embedded Systems, Discrete Math, Linear Algebra, Calculus, Physics, Probability & Statistics

SKILLS

Languages: C/C++, Python, Java, JavaScript/TypeScript, HTML/CSS
Tools: Git/GitHub, VS Code, Cursor

Frameworks: React, Node.js, NextJs, Spring, Django, Tailwind

PROJECTS

Prescripto-Health Management System | *VS Code* Nov. 2024
- Developed an online health management and appointment scheduling application with a user-friendly interface and high performance.
- Used TypeScript to ensure code quality and maintainability, Tailwind CSS for responsive design, and ViteJS to optimize build speed and development efficiency.
- Appointment booking, patient record management, notification integration, and support for searching specialized doctors.

Instagram-Clone | *TypeScript, HTML/CSS, Git, VS Code* Dec, 2024
- Developed a full-stack Instagram clone with core features such as user authentication, photo uploads, likes, and comments.
- Built using TypeScript for robust frontend logic, HTML/CSS for responsive and visually appealing UI, and Git for version control and collaboration.
- mplemented a real-time feed, user profiles, and interactive post engagement functionalities.

EXPERIENCE

Currently a 4th-year Software Engineering student at Saigon University, Vietnam | *Student* 2021 − Present
Using programming languages (Java, JavaScript/TypeScript, CSharp) and frameworks (React, Nodejs, Nextjs, Spring)

HOBBIES

Playing the Game

Exploring coding techniques and learning new programming languages

Listening to music and Reading book to relax and inspire creativity
